

45th Annual Conference of KCIAPM

Dear delegates,

The organizers of KAPCON 2018 thank you for sending in your abstracts for the poster and oral paper sessions.

This is a brief overview of the review process, in order to provide clarity:

The abstracts were blinded of all identifying information and then sent to a team of 9 independent reviewers, who scored each abstract on 5 parameters including

1. Originality and importance
2. Relevance to the KCIAPM conference
3. Robustness of research methods used
4. Quality of results
5. Clarity in presentation of findings

Each of these aspects was graded on a scale of 1 to 5, giving a total score of 25.

The average score of all reviewers was then calculated, which was taken as the cut-off score for qualifying as an oral paper.

Any abstracts below this score have been reclassified as a poster.

This has been done in the interest of keeping the review process as objective as possible.

We wish all the delegates the very best for their presentations at KAPCON 2018.

We look forward to meeting you all at the conference.

With warm regards

KAPCON 2018 Secretariat
